THE

INFRASTRUCTURE SOLUTIONS

COLLECTION

WATER • FIRE PROTECTION • FLOW CONTROL • TREATMENT SYSTEMS

AGD Equipment Trading LLC is a a sister company of **AGD Electromechanical LLC**, specializing in the **supply, construction, and maintenance of engineered solutions** across a wide range of infrastructure and industrial sectors.

Our company was founded with a vision to provide clients with a **single, reliable source** for both the supply and implementation of electromechanical systems. Backed by over **40 years of combined industry experience**, we have successfully supported projects spanning infrastructure, industrial facilities, desalination plants, solar energy developments, district cooling plants, hospitals, and other critical sectors.

Today, AGD Equipment Trading **represents world-leading manufacturers and delivers comprehensive solutions** for water, wastewater, drainage, irrigation, fire protection, and flow control applications. By **combining premium products with technical expertise and project execution capabilities**, we provide our clients with a seamless solution from procurement through installation and ongoing support.

VALVES & CONTROLS

Reliable flow control solutions for water, wastewater, district cooling, fire protection, and industrial applications.

PRODUCT RANGE

- Gate valves
- Butterfly Valves
- Check Valves
- Air Valves
- Control Valves
- Needle Valves
- Knife Gate Valves
- Strainers

FIRE PUMP PACKAGES & SYSTEMS

Integrated fire pump packages designed to provide dependable performance and uninterrupted protection for commercial, industrial, municipal, and critical infrastructure facilities.

PRODUCT RANGE

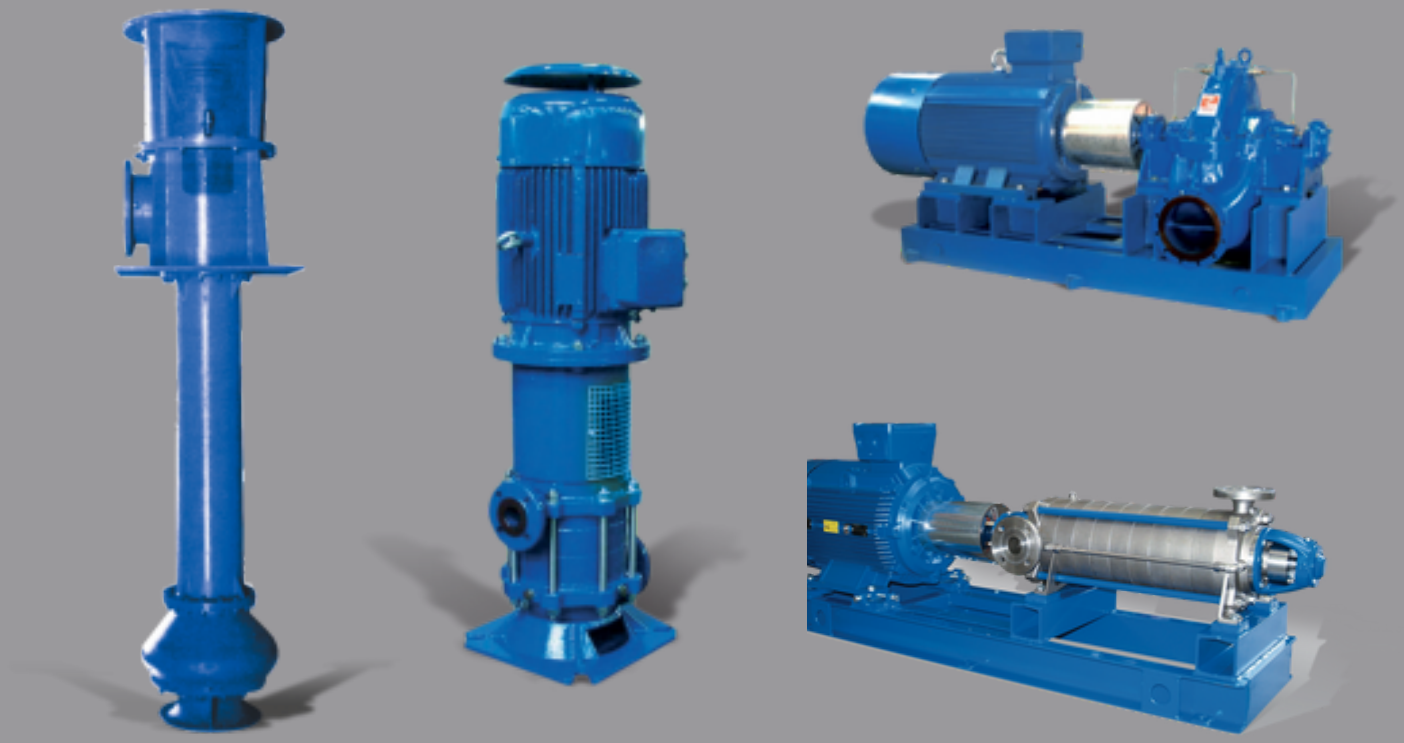
- FM Approved Fire Pumps
- Horizontal Split-Case High-Flow Fire Pumps
- Vertical Turbine Fire Pumps
- Fire Pump Packages Suitable for Hazardous Areas (Electrical or Diesel Engine Driven)

FIRE HYDRANTS & FITTINGS

Engineered fire protection solutions that combine durability, reliability, and compliance to safeguard communities, facilities, and critical infrastructure assets.

PRODUCT RANGE

- Wet/Dry Type Fire Hydrants
- Pillar Type Fire Hydrants
- Underground Fire Hydrants
- Fire Valves
- Dismantling Joints
- Flange Adaptors
- DI Pipes and Fittings
- Fire Hydrant Barriers
- Basket Strainers



INDIVIDUAL PUMPS

High-performance pumping solutions designed to deliver reliable flow, energy efficiency, and long-term operational performance across municipal, industrial, and utility applications.

PRODUCT RANGE

- Multistage Centrifugal Pumps
- Split-Case Pumps
- Surface Vertical Volume Pumps
- Vertical Line Shaft Pumps

PIPES & FITTINGS

Comprehensive piping solutions engineered for the safe and efficient transport of water, wastewater, fire protection, and industrial fluids across critical infrastructure networks.

PRODUCT RANGE

- Ductile Iron
- Stainless Steel
- Carbon Steel
- Dismantling Joints
- Flange Adaptors

WASTE WATER TREATMENT SOLUTIONS

Comprehensive water treatment technologies designed to improve water quality, protect infrastructure assets, and support reliable operation across diverse applications.

PRODUCT RANGE

- Filaments and Foaming
- Odour & Hydrogen Sulphide
- Midge Flies & Larvae
- Fat & Grease
- Aeration & Mixing
- Enzyme Catalyst
- Anaerobic Digesters

WATER TREATMENT EQUIPMENT

Integrated water quality management solutions designed to improve clarity, control algae, enhance ecosystem health, and maintain the long-term sustainability of lakes and ponds.

PRODUCT RANGE

- Ultrasonic Algae and Biofilm Control
- Sediment Removal Solutions
- Cyanobacterial Control
- Phosphorus Removal
- Aquatic Weed Control
- Aeration Units
- Fountains
